RIJAD KULOGLIJA

SOFTWARE DEVELOPER
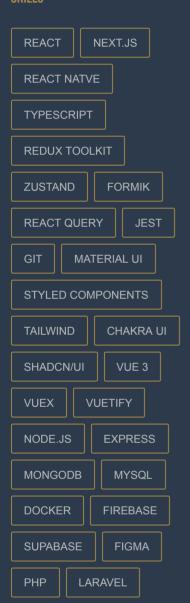

Sarajevo, 71000, Bosnia and Herzegovina

rkuloglija@gmail.com

ABOUT ME

Results-oriented Software Developer with five years' experience building high-quality, visually appealing web applications using React, Next.js, and full-stack JavaScript. I excel at code optimization for performance and seamless user experiences, consistently meeting deadlines and budget constraints. Proven leadership in development teams ensures timely project delivery.

WORK EXPERIENCE

PROCREDIT BANK
Sarajevo, Bosnia And Herzegovina
Mar 2024 - Present

Full-Stack Developer

- Led full-stack development lifecycle (design-to-deployment) using Agile methodologies, boosting team efficiency through sprint planning and daily stand-ups.
- Successfully delivered high-impact projects including FeedBackApp, ProClients, MemberGetMember, and Ultimate HR Dashboard.
- Proficient in Vue, React, Python (Flask), PHP (Laravel), MySQL, SQLite, Bootstrap, Material UI, and Vuetify.

ARKONA TECHNOLOGY
Belgrade, Serbia
Oct 2024 - Mar 2025

Senior Frontend Developer

- Led the end-to-end development of Arkona Technology's responsive, high-performance website, delivering an exceptional user experience.
- Developed the GumaMax web-based tire ordering dashboard application, enabling multi-vendor product sales and management.

SUPERLEX
Switzerland
Feb 2024 - May 2024

React + AI Engineer

- Developed and deployed key features (Login/Registration, Email/Phone Verification, Dashboard, File Upload) leveraging cutting-edge AI (ChatGPT integration).
- Secure, user-friendly dashboards enhanced user satisfaction and provided reliable, efficient legal advice via AI.

BLOOLA GMBH & CO. KG
Gevelsberg, Germany
Sep 2021 - Nov 2023

React Developer

- Led Agile development on high-profile projects (BMW, Deutsche Bundesbank, Bloola Factory), driving sprint execution and daily stand-ups.
- Resolved complex application issues via effective debugging and troubleshooting.
- Guaranteed code quality through rigorous unit and integration testing.

ACKE CREATIVE STUDIO
Ilijas, Bosnia And Herzegovina
May 2023 - Jul 2023

React Developer

- Developed and delivered a fully functional, personalized React-based web dashboard (MVP) for music producers within a three-month timeframe.
- Collaborated closely with product owner and a small, agile team to manage the entire product lifecycle (design, planning, development, deployment).
- Built a highly scalable and adaptable user interface delivering a personalized user experience based on dynamic user needs.

SOLUTION404
Sarajevo
Jan 2021 - Sep 2021

Software Developer Intern

- Developed full-stack applications using React, contributing to the MyLawyer app and leading the design and development of the Mine Tracking app from conception to deployment.
- Enhanced e-commerce application performance, resulting in an 11% conversion rate increase through strategic recommendations.
- Gained extensive experience within the React development ecosystem.

EDUCATION

SECONDARY SCHOOL OF ELECTRICAL ENGINEERING
Sarajevo
2017

Electrical Technician for Computing and Informatics

INTERNATIONAL BURCH UNIVERSITY, FACULTY OF ENGINEERING AND NATURAL SCIENCES
Sarajevo

B.Sc. Computer Science
